Running Your Business

- Developing a clear and powerful set of both personal and business goals and having a vision for my company.
- To get myself the freedom of more time away from the business, still knowing it is growing and creating more, and more, profits without me there.
- To help me understand how to re-invest my profits back into the business or how to take profits and invest them for passive income outside of my business.
- Getting a solid business plan of action so I and my team are focused on doing what matters, what's important and what will get the biggest results.
- To get the business and my people to a stage where they can run it profitably so I can take some time out each week and vacation each year.
- Developing a straight forward succession plan so I can replace myself with the right people, at the right time and allow them to run it without me.
- Expanding the operation to multiple outlets or multiple territories so I can take advantage of an already solid and profitable business model.
- Creating a franchise system that both sells and creates profitable franchisees who can afford to pay me serious royalties.
- Assistance with taking the company international to profit from global markets, global costs and global currency values.

Systems

- Having a system for controlling, managing and reporting the company finances so I can know I am building real profits.
- Working 'ON' my business rather than 'IN' it and create a systems dependent company rather than a people dependant one.
- Developing an organizational chart and position descriptions and getting the company administration handled.
- Building consistency of delivery into my products/services giving better levels of service and more rewarding customer experiences.

Coaching

- Having a Hotline to a great coach who can help me stay focused, answer my most important business questions and help me grow the business.
